FINANCIAL POLICIES AND INSURANCE

At Treehouse Dental Care, we strive to provide you with the best dental care possible. Treatment fees vary based on your child's individual needs.

In an effort to have a seamless appointment, we must be advised if you have insurance through an insurance provider prior to your child's appointment so that we can complete the insurance forms and submit your claim electronically on your behalf. Treehouse Dental Care is a specialty practice and we do not accept direct payment from your insurance company. Therefore, full payment must be made at the end of each appointment and you will be reimbursed directly by your insurance company. We accept Visa, Mastercard, American Express and Interac.

Under the HSO guideline's in regards to the coordination of benefits, **if you are currently enrolled in Healthy Smiles Ontario (HSO) and have existing private dental insurance, your dental claim MUST be submitted to your insurance company first.** Failure to do so will result in all fees to be paid immediately to Treehouse Dental Care and may not be eligible by HSO.

We thank you in advance for supporting our practice standards.
